

If your motorhome chassis wheel base is greater than 158" or 13'2", which can be measured from center line of the front tires to the center line of the rear tires, then your chassis has been modified by Coachmen RV, a division of Forest River, Inc, per the guidelines of Ford's Quality Vehicle Modifiers (QVM) Q-14, Q-18, and Q-40 bulletins.

If you have questions or concerns regarding the operation of your vehicle, as it pertains to the driveline components, braking, or exhaust components please feel free to contact Forest River or Coachmen Customer Service or you may schedule a service appointment at your nearest Forest River or Coachmen Service Center for evaluation/service.
